

NDDDB signs MoU with EESL to promote efficient renewable technologies in the dairy industry

written by iasexam.com | 07/05/2021

The National Dairy Development Board on Thursday said it has signed an agreement with Energy Efficiency Services Ltd (EESL) to promote efficient renewable technologies in the dairy industry.

The memorandum of understanding (MoU) was signed on May 5 at Ananda, Gujarat by NDDDB Executive Director Meenesh Shah and EESL Director (Projects) Venkatesh Dwivedi in the presence of senior officials, it said in a statement.

Key Highlights

- As per the agreement, EESL will conceptualise, propose and design technically sound alternate energy generation solutions for plants in the dairy cooperative sector across the country.
- It will also arrange necessary technical and funding support for the design, development and operation of the non-conventional energy generation models.
- Whereas National Dairy Development Board (NDDDB) will extend its expertise in dairy

business/dairy plant management/other related activities to facilitate /support conceptualising, development and implementation of the alternate energy generation models.

- The Dairy Board will also assist in the development, monitoring and evaluation of programmes leading to assessment of outcome/impact of projects.
